Subject: FW: Ringwood Mines - Revised OU2 Remedial Action Work Plan and Response to Comments Letter

Good Evening, Everyone

Joe has asked that I share the following email from him with you.

Please be advised that a revised OU2 Remedial Action Work Plan (RAWP) for the Ringwood Mines/Landfill site is available for review on EPA's Site-specific webpage. This document can be accessed directly at the following link: <https://semspub.epa.gov/work/02/618291.pdf>. The RAWP has been revised to address concerns expressed by EPA, the New Jersey Department of Environmental Protection and other Site stakeholders. A letter which provides specific responses to comments on the draft RAWP is also available for review at the following link: <https://semspub.epa.gov/work/02/618292.pdf>. Please note that EPA intends to provide feedback to the Ford Motor Company regarding the adequacy of the revised RAWP by June 21, 2021.

Please don't hesitate to reach out to Joe or to me with any questions or comments. Thank you for your continued interest in the Ringwood Mines site.

Pat and Joe
